Working method

Barks

Melt **Carat Coverlux** to 45°C and allow to cool down to 35°C before using.
Mix **Carat Coverlux** with 80% of the inclusions and pour into a square mold.
Before the bark sets, add the remaining 20% of the dried ingredients as decoration on top.

Tips

- Be creative! Use any types of dried fruits, roasted nuts, etc ... to make a diversity of barks.
